MEMORAHRAM FOR: Deputy Director of Central Intelligence

SUBJECT

: Review of Foreign Service Officer Candidates

- 1. This memorandum suggests action on the part of the MDCI; this action is contained in paragraph 3.
- 2. The Chief, Operational Services Division, DDP, has requested that we seek agreement of the Department of State to permit us to screen their Foreign Service Officer Register for possible candidates for our Career Training Program. Pirect access to the Register mould be asking a good deal of the Department since it represents the end product of the Department's whole recruitment and selection process for the Foreign Service and appointments are made from the Register at various times as the need arises. However, if our representatives could review a selected group from the thousands of candidates for the Foreign Service, it could be a very constructive development for the Agency's recruitswint program.
- 3. There is attached for your signature a letter to the Deputy Under Secretary of State for Administration requesting emploratory discussions with the Department on this matter.

Coor Bills

May I ask whether it would be agreeable to you to explore at this time how the Department might be able to reason certain assistance to this Agency in its protocolonal recruitment program.

As you may know, we have a special program to attract, recreit and develop juntar differs who will become the professional intelligence officers of the future. They are recruited throughout the United States by direct contact with universities and colleges and we are now staking additional masses of attracting qualified considers in order to most our forespeable requirements. Our limited resources do not begin to natch the long-established system for the recruitment of Foreign Service Officers with the wide respect it onjoys throughout the country.

investment in the selection and manipolion precase and the protection of its integrity to meet the moods of the Department ment be your first consideration. But beyond this, there must be many hundreds of condicates who take the associantion but fail to make the Register. What we are suggesting, therefore, is access for our raview to as broadly selective a group of candidates as the Department would dean feasible.

Agency banefitted substantially from the screening and recruitment, at the Department's suggestion, of the many FIG candidates qualified on the Register but in excess of requirements.

If further discussions of this proposal are agreeable, I suggest that you let me arrange for Mr. Emust G. Echols, our Director of Personnel, to get in touch with whatever representative you may suggest.

Sinceroly.
